The Project

The NetInk project aims at strengthening contacts and mutual exchange of experiences between CSOs from the member States (Italy and Denmark) and Candidate countries (Bulgaria and Romania) in order to ensure equal treatment and human dignity for disadvantaged children.

Objective of the International Seminar:

To raise public awareness on the social inclusion and equal treatment issues of vulnerable children through the creation of a network facilitating the interaction between CSOs, local authorities and relevant stakeholders.

Information on the projects and its activities are available on the official project's website

www.gvc-italia.org/netink
